

TriStar[®]

Telephone Headset Family

Ultra-light, over-the-ear style offers stable, custom fit

Unique three-point design delivers unsurpassed stability and comfort

The Plantronics[®] TriStar headset is so light and stable, you'll forget you're wearing it. Its unique three-point design provides support behind, on top of, and in the ear for a discreet and comfortable fit. Advanced materials make TriStar incredibly light—only 0.42 oz—but still very durable.

Four earbud sizes let you select the fit that's right for you, delivering the very best in sound quality and all-day comfort for call center and office professionals. The uniquely balanced design works equally well for eyeglass wearers.

TriStar is available with our trademark voice tube or a noise-canceling microphone, and is built to last.

Backed by a two-year warranty, TriStar delivers unsurpassed reliability all day, every day.

HEADSET AMPLIFIER REQUIRED

AMP UP!

Plantronics offers amplifiers to connect our headsets to your telephones, including cordless models for office mobility.

Direct-connect Polaris™ headsets are available for headset-ready phones and agent consoles.

World Leadership: Plantronics is a world leader in lightweight communications headsets with over 40 years of experience. We offer a complete line of headsets for call center, office, home, mobile and computer applications, all backed by a service and support team that is second to none.

The Plantronics voice tube advantage: Plantronics invented the voice tube and continues to improve the design to deliver the best in performance and style. Our voice tubes are the only ones that slide back and forth for better positioning and

improved sound quality. You can also add color to your conversations with AttiTube™ color voice tubes.

Reliability for business-critical applications: Plantronics has years of experience developing headsets for mission-critical applications, including 911 centers, the FAA and even the headset that carried Neil Armstrong's first words from the moon. That same attention to durability and reliability goes into the headsets we design for your business-critical applications.

TriStar®

Telephone Headset Family
