

# Polycom® Voice and Data Sharing Products

The right solution for any business communication need

Your conference room phone is one of your most valuable assets to help you collaborate with others. And regardless of the size of your conference room, calls are productive and efficient when participants on all points of the call can hear clear, crisp voice quality - even during simultaneous conversations. With Polycom's patented Acoustic Clarity Technology, your conversations flow naturally and get everyone talking.

We've recently given our product line a fresh, new makeover, and have introduced groundbreaking products that will change the way you communicate. From the desktop to large, integrated auditorium systems, from analog to digital to IP networks with multiple protocols, from wired to wireless, Polycom has the right voice solution to enhance any business communication need. And now you have the option to share content right from your Polycom conference phone, making your calls more efficient.

#### **Polycom – The Market Leader Worldwide**

Polycom has been the worldwide conference phone market leader since 1992. We redefined voice conferencing with the revolutionary SoundStation VTX 1000®, moved conferencing outside the conference room with the wireless SoundStation2W™, set a new standard for business-quality conferencing with the SoundStation2™, offered a SIP enabled conference phone with the SoundStation® IP 4000, and now offer the ease and convenience of Voice+Content with the new Polycom QSX™.

#### **The SoundStation VTX 1000**

The world's first conference phone that automatically adapts to each meeting environment, providing high fidelity voice clarity for all participants, whether they're two feet or 20 feet away from the microphone. And, when two SoundStation VTX 1000 units connect on opposite ends of the call, users experience the benefit of wideband audio for life-like conversations.

#### **SoundStation2W**

Offers better voice quality than the original SoundStation with the freedom of wireless. Now you can conference anywhere team collaboration is important - even in rooms where there are no phone lines – without sacrificing audio quality.

#### **SoundStation2**

Sets a new standard in everyday conferencing. Delivering remarkable voice quality equal to the SoundStation Premier® and a 50% increase in microphone sensitivity over the original, award-winning SoundStation, users can speak up to ten feet away in a normal voice and still be heard clearly – making every call a more productive call.

#### **SoundStation IP 4000 SIP**

The answer for organizations that are ready for the convenience and versatility of an IP enabled business. Designed for offices or small to medium sized conference rooms, the SoundStation IP 4000 SIP allows users to speak naturally from up to ten feet away from a microphone and still be heard clearly on the far end of the call.

#### **Polycom QSX**

Allows users to instantly share a live view of a computer screen with remote locations simply by dialing a Polycom conference phone. It's an easy and secure screen sharing solution that anyone can use.

#### **Best-in-class conference phones to access the power of Polycom unified collaborative communications solutions.**

With the greatest breadth and depth of integrated video, voice, and Web solutions, only Polycom delivers the ultimate communications experience. Our market-leading conferencing and collaboration technologies, supported by world-class service, enable people and organizations to maximize their effectiveness and productivity. Add to that the most experience and proven best-practices in the industry, and it's clear why Polycom has become the smart choice for organizations seeking a strategic advantage in a real-time world.

For unsurpassed voice clarity, conferencing freedom and increased productivity in your conference rooms, offices or anywhere, there's only one clear choice: Polycom.
